Subject: proposed development

Dear Mr. Hart,

On behalf of GPISD I am writing today to share my concerns regarding proposed development of 3 acres located adjacent Garcia Elementary. My communication with the councilperson who represents the district which includes Garcia Elementary and the adjacent acreage has communicated that the proposed development is logistics, freight, and warehousing. In addition, he indicated that the proposed business may be a 24/7 operation. Students at Garcia often walk to and from school and I believe this development will present unique hazards to our school students. Increased traffic flow and congestion in a "walking" neighborhood is not a winning combination. The option to transport students in an effort to increase student safety is financially feasible. I am requesting that the City consider seeking a different option for use of this property. Please let me know how I can assist your team in finding a better solution for this site.

Let me know what I can do for you.
