

Lakeside Lodge-SWBC

Lakeside Lodge is a 304 luxury unit proposed multifamily project located along the west side of State Highway 360, south of I-20. The property is designed in the style of Mission architecture (include elements here) on 17.63 acres with a density of 17.2 units per acre and an average unit size of 870 s/f. The project consists of 3 story buildings, some of which offer an attached garage. There will be a total of 137 garages, of which 51 will offer direct access to the interior of the unit. The development will also include 5-two story casita buildings.

We have designed the apartment buildings facing 360 to be a welcoming view to onlookers with enhanced elevations and buildings without garages.

It will also include an approximately 8,000 s/f Mission style barrel tile roof clubhouse leasing center with a resort pool and fitness area. Other amenities include a business center, a great room including a fireplace, a game room, a gourmet kitchen, and internet café with a full coffee bar.

The project offers a variety of unit types in 1, 2, and 3 bedrooms ranging from 650 s/f to 1,250 s/f. The living units include modernized features such as island bar tops, and stainless steel appliances in upgraded units. All units will feature a private patio containing a large storage closet.
