In addition to the outside play area, there are two rooms located on a second level of the building that has access to the slide will not be utilized for classrooms. They will be used for brief recreation periods and will always be supervised with teachers in each area. In addition to mandatory supervision by caregivers, there are surveillance cameras located in each portion of the open rooms. Children will never be allowed to enter those areas without proper supervision. After these areas have been used, a walk through will be conducted to ensure no child is left behind.

An additional plumbed sink will also be installed in the 18 month to 2 year old class room to ensure proper diapering procedures are followed.

Thank you,

Marketta Nimo
