Fluor Heavy Civil Temporary Batch Plant Permit

City of Grand Prairie,

In regard to the Temporary Batch Plant Permit that Fluor Heavy Civil has submitted to the City of Grand Prairie Planning and Permitting. We understand that we have had many discussions with various Project Managers from Fluor and with Planning and Permitting officials with Grand Prairie. In an attempt to clear any confusion and move forward with this plant permit. This letter is to provide a clear understanding of Fluor's intent with this Batch Plant permit for construction of this project. Fluor Heavy Civil would prefer to move ahead with the Temporary Permit with the 6-month duration and one 6-month extension from the time of issuance from Grand Prairie. Fluor has made future plans to move this Batch Plant to another project in May of 2019. We can be available anytime at your convenience to help expedite the approval of this permit.

If you have any questions or need additional information, please call.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Nall", with a stylized flourish at the end.

Doug Nall  
Operations Manager, Fluor Heavy Civil
