

Exhibit B - Operational Plan

Operational Plan

Penske Truck Leasing
2765 N Great S.W. Parkway
Grand Prairie, TX

Penske Truck Leasing (PTL) offers short term personal truck rentals and long-term truck leases to businesses. PTL facilities such as our Grand Prairie site are where our customers can rent and/or return these various trucks, trailers and associated equipment.

During this onsite transaction all sales and excise taxes are collected and reported as required by law.

PTL vehicles meet all national, TXDOT, and other vehicular mandatory requirements including but not limited to licensing, regulation, registration and inspection.

Trucks and trailers are parked on our site empty of any materials between rental/leases. When a truck is returned from a customer PTL will perform necessary services on the vehicle at this facility. The services performed can include all repairs, Preventive Maintenance, interior cleaning, exterior washing and re-fueling. All of these operations are required to be completed in order to meet all OSHA, EPA and other national and state regulations.

Our sites are constructed in order to operate with all of these regulations in compliance.
